To our mind, the most profitable program is Partnership CamGuest. This site has great rebill potential: a common paysite offers you \$30-\$50 in average per one converted member in partnership program, CamGuest partnership payouts are limitless! An average member spends \$500 per month and 20% of this amount makes you \$100 already! The site content (performers in this case) is updated daily, new models sign up and go online almost every hour which endures CamGuest with high retention force! Our members are loyal to our site, which means working with us you are filling your own pocket!
